5 July 2016

Dear Parents / Guardian

## **'Bubbly Bubbles Party!' - RGPS Family Science Club Workshop @ Science Centre Singapore, 27 August 2016**

I am pleased to invite you and your child to join us in the RGPS Family Science Club workshop '**Bubbly Bubbles Party!**' for our P3-5 family community on 27 August 2016. This workshop is the second collaborative effort between RGPS Science Department, Science Centre Singapore as well as RGPS PVG with the aim to collaboratively design and co-organise unique family programme exclusively for RGPS family community.

Following the overwhelming response to our debut workshop last year, we aim to continue to provide you with unique family bonding experiences where you can enjoy exploring the science of everyday life together as a family (one parent & child) through fun and engaging science-themed workshops at a subsidized fee. We hope that through the programme and with your support, your child's interest in Science will be further strengthened while you guide them in discovering the real-world Science around them and make connections to what they are learning in school.

Do come and join us in exploring the science behind bubbles and discover the secrets to creating long lasting bubbles. In line with the philosophy of learning while you do, this workshop promises to be an enjoyable and enriching experience to you and your child with valuable hands-on experience under the guidance of our facilitators.

You can start to register by logging onto the **registration portal** [www.regonline.sg/RGPSbubbles2016](http://www.regonline.sg/RGPSbubbles2016) . Registration is on a first come first serve basis at **\$11.65 per family pair**. Please note that the **deadline to register is 12 August 2016, so act fast!**

Do also connect with us at our Facebook <https://www.facebook.com/rgpsfamilyscienceclub>. You can also check out the pictures and videos of our debut workshop *Microbes Gastronomic Affairs and the re-run* workshop conducted last year.

Please do not hesitate to contact our RGPS Family Science Club PV coordinator, Mrs Hurustiani Boy, at [hurustiani.boy@gmail.com](mailto:hurustiani.boy@gmail.com) should you require any clarification.

# Bubbly Bubbles Party!

Longest  
Lasting  
Bubble

Bubbles fascinate both children and adults with their beautiful shapes and rainbow colours. Such simple ingredients – soap and water – create mesmerizing examples of both geometry and chemistry. Do you know the 'secret' ingredient to strong and bouncy super bubbles? Come and join us in the Bubbly Bubbles Party where the 'secret' ingredient and the science behind these captivating bubbles shall be unveiled! Team up, brainstorm and create your team's very own bubble magic and put it to test in the Longest-lasting Bubble Challenge!

Come and experience the bubbly fun for both the young and the young at heart!

Date : 27 Aug 2016 (Saturday)

Time : 10am - 12.30pm

Venue: Ecolab, Science Centre Singapore

Cost : \$11.65 per family pair
